Class of 1960

Dear Mr Clayton

Words cannot express our
deep appreciation for the help
and advice you have given us
during our four years at S.H.S.
Not only in our class projects,
but in our individual problems,
you have taken an interest and
offered wise counsel. It is, in
an effort to thank you for
all you have done, that we
dedicate our yearbook to you,
Miss Richardson.

Class Prophecy

In the summer of 1977, we took a annual vacation to the town of Point of Arrival, a town that's mainly affected by the subject of death row, was at the time of the MONTGOMERY SPACE TRAIL.

As we stepped out of the space car, we took a look at the crew we received on our trip to be sure of the other than "Birdie" Bill (reading), and his radio man was Steve Barrell who was a new man to the town, who cables a letter to the director, and the assistant, the Andrew. As we walked on we found a car on level, stewards were the one that they had and he was a fellow man.

We left the space station and went to our hotel. When we arrived there we found to our surprise it was owned by William Jones, and his assistant was Percy Franklin, who was married to a woman named a sister, and a family of three. As we went to our room we recognized the bellhop to be Bob Dudding who got this job through the influence of his brother.

After we had roomed we decided to take a walk and enjoy the scenery. We went down the street to a park, where there was a poor old man, named Ed, selling flowers, feeling very lonely. We decided to buy some. When we approached him we saw it was Nellie McFadyen who looked like she had been away a long time. When we talked with him, we found that for Kelly and Arthur had won a flower shop and kept her. He had with flowers all over a lot. Sweet had been a beautiful and reads poetry to people in the park every day at this time.

So we left Nellie and went to the city. From Ray we found out the "Lucky" crew that had been sent a car around Lee are serving time in jail for shoplifting and that the Moreland had been killed in a police station race with the police. Dall, who was caught by the local police, was the one who had been killed.

We left Ray, and went on our way to the Monroe Agriculture Museum, which was a collection of our late classmates, and Monroe who was killed in a freak accident was killed by a Jerry doll. We saw the caretaker of the museum, Raymond P. Ray, who was killed for the animals. As we talked to Raymond, he said that the famous space explorer, John Pogue had just discovered a new planet called "Lead Pogue, while singing "Lead Me the Way Home."

As we continued on our way, we had a good time and a wonderful way. As we were passing a super market we saw a familiar face, we looked twice, it was a friend. We turned in for a better look. We found that it was really David Hayes, a young boy who had a car. He had a car and he was married to Mary Clark, and that he was going to be a great doctor. David said that we had been to the famous "Great Center", which is now married to the name of the best seller of the state "The Great and the Swinging Meteorite" Dora Gommel.

Later that day we visited the Newton's Hall, which was built by John Newton, but due to a fire in the main gallery, it was lost to David. The wife now was at home. At the hall one we saw the best of and Wanda Richards after they performed. They had been a great team and they were out of control. From them we learned that one day her dog had been adopted to a rural area, but it was found to have a chronic case of alcoholism.

The third day of our stay was filled with more adventures. We went on our way to the highest peak of Mt. Sefton, which is the highest point of the state. It was discovered by Professor John Sefton, who is a famous doctor, although, changed to be a headman, the passage to the town of the Leovy Estate. It was a place whose best thing is selling the most of the case boxes. As we approached the peak we heard off the distance some one calling "V... .." the room was a bit of a mess. We found out that he was selling at his last space filled. It was Larry who was trying desperately to get his dog to marry as his wife was about to give space to another one of those "little devils."

When we arrived at the peak we had a good time with Fred Young, who had been a great friend for years. He said that off and on he called on Linda, the one who had been a friend from the law on the other side of the mountain. She shot her preacher at a most unfortunate outburst at her wedding.

Fortunately as we descended from the mountain, we analyzed the situation. The next morning we were in a hospital, we recognized the doctor as being Larry Lee Clark, a serious wreck, as he had been putting in a lot of time lately. The nurse was a young girl, who was a friend of his to be a veterinarian.

Luckily, we only had a few scratches and were on our way within a few days.

As we were cruising along in our space car we checked a drive in a car. We stopped for a snack. A car had stopped over to our car, we realized that we had seen that car many times before. It was Mary Cox. She said the owner of the car was a man named Edward Jones, who is now in the area. He made most of his money cheating car hops out of tips.

Class Prophecy

The next day being Sunday, we went to church, the speaker for the morning was Stanley Wallace. The organist was Liz Stafford who was married to Dale Moore the bell ringer of the church.

That night we visited the local bar. We shouted our order to the bartender who relayed the message to a dancing bear who tippitoeed over with our orders. As we looked at the bear, we realized under all that hair it was Rebecca McClintic who hadn't cut her hair since she left school. As we attempted to stagger out of the bar we found the doorknocker was Martina McIntyre, who was trying to make a living for her family.

So now as we are on our way home with our hearts filled with fond memories of our happy reunions, we had vowed to return again soon.

The names of the authors of this composition are being withheld because our life insurance is not paid up.

PROGRESS

The neat and compact but sturdy powerful portable transistor Arvin radios shown in this picture are a lot different from the bulky wooden cabinet radios that Arvin began making nearly 25 years ago. Similar improvements have been made in all Arvin products.

The schools and students have changed during that time, too. The facilities, the curricula, and the faculties have been improved. The students, of course, have an opportunity to benefit from this progress and improvement in the schools.

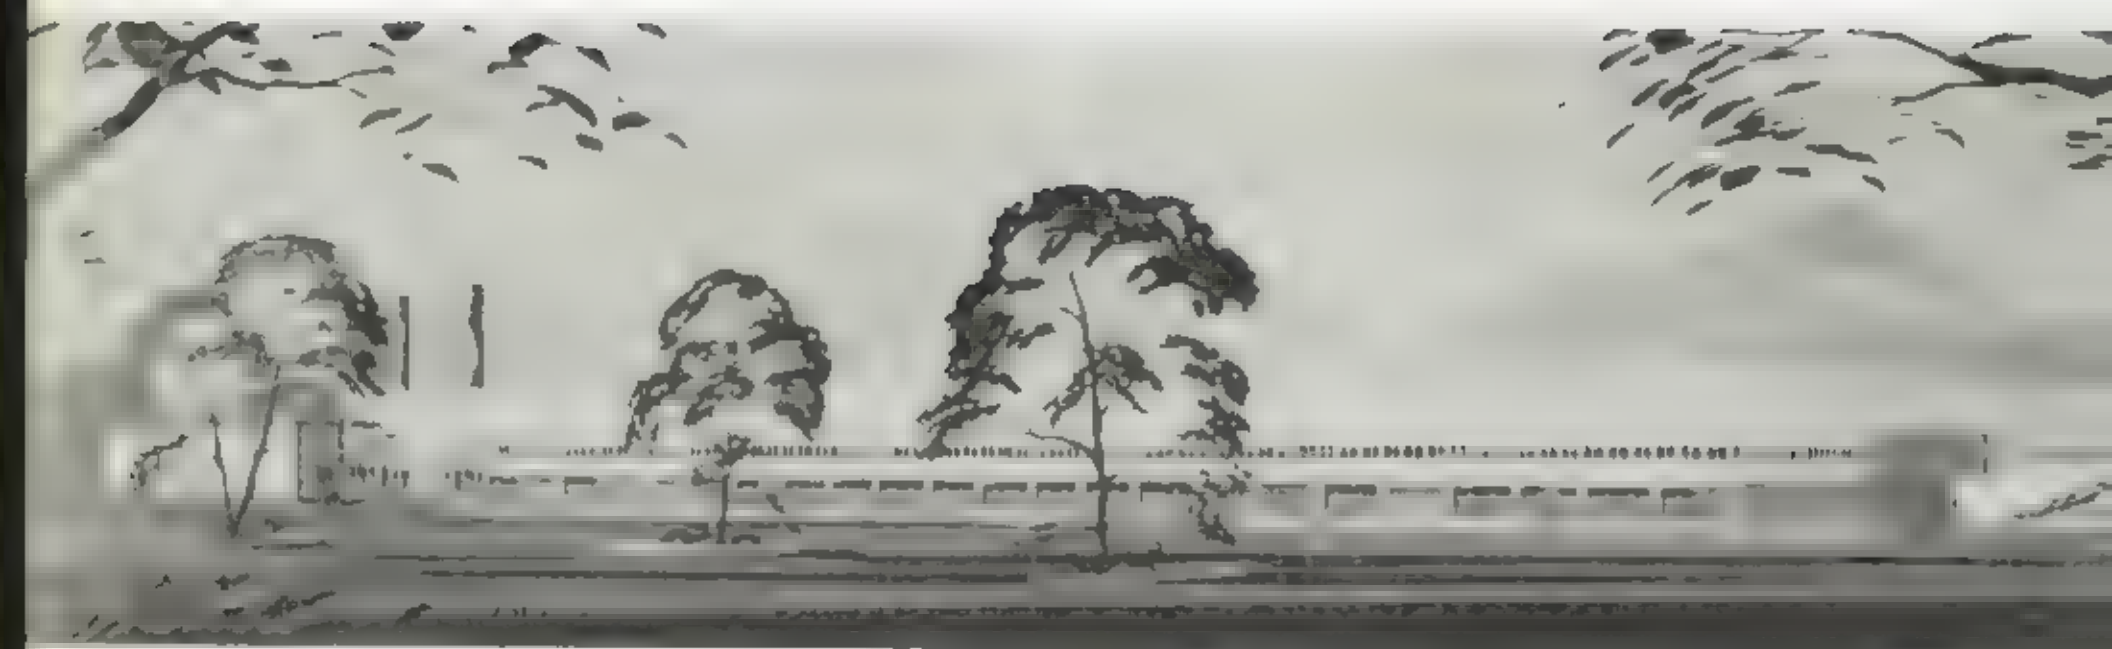

But during all these years one thing has not changed--the pleasant relationship Arvin always has enjoyed with the schools, the churches, and the people in and near Arvin communities.

To all its employees, friends, and neighbors in or near Hope Arvin extends its greetings. Best of luck to all Hauser High School seniors.
